

eurobrass - Ensemble or non-profit organization?

The 12-member professional ensemble eurobrass is the flagship of the non-profit organization "eurobrass - music that goes beyond." Founded in 1978, its membership varies from year to year. After more than 30 years as a ministry arm of the German Bible Institute in Königsfeld, Germany, the ensemble needed a new structure that would support the ministry and carry it forward. To that end, in March 2009 the non-profit organization was founded. Goals of the organization are:

- Worship
- Evangelism
- Encouragement of believers
- Personal, spiritual and musical growth of team members
- Support of like-minded organizations in Germany

In addition to the ensemble, other aspects of the non-profit's ministry include:

- Workshops and rehearsals for church brass choirs, town bands and brass ensembles
- Private lessons for brass instruments
- Presentations for Christian women's events or worship services
- Instrumental performances in worship services and concerts
